

If you are looking for an action movie extraordinaire, look no further. Gangs of Wasseypur is a film comprising two parts - Gangs of Wasseypur 1 and Gangs of Wasseypur 2. The first part deals with the rise of the criminal Syed Behrani who enters into coal mining. The second deals with his son's vengeance against those who had conspired against him and killed his father. Both parts are extremely gripping. The first part of the movie is more engaging than the second one. The characters are very well crafted and dominate the film. The acting of each character is also done excellently. It is shocking to see Manoj Bajpai, one of the best actors in Bollywood, perform under an extremely different character than what he usually plays on screen. He plays a coal mine owner who hails from Wasseypur city in India and has migrated to America for business purposes. But he decides to go back to his hometown at the behest of his family members. Hats off to the director for taking this risk. Gangs of Wasseypur 2 is one of the finest action movies. The action, the cinematography, the storyline are all prime examples of what an energy packed cinema can achieve. The sets are marvelous, actors are absolutely brilliant and all the action sequences are shot in a manner that has rarely been seen before or since. It will leave you awestruck at how much Bollywood thought has gone into this movie. If you have not watched either part yet, then Gangs of Wasseypur 2 is a must see movie for you. Gangs of Wasseypur 2 is an extremely gripping story about revenge. It is very interesting story of Wasseypur city. It gives a presentation of the history and has a lot to offer to the movie enthusiast as well as to those who are just looking for something exciting and different. It gives you a glimpse of the real India, where corruption is rampant but still lives among you - people believe in justice - even if it is an injustice - and they don't mind sacrificing their lives for what they think is right. This movie will make you explore a brand new concept of Indian society - old orthodox way of living, where people think everyone should look after them - blind belief that things will be fine because everyone --- everyone was born with that kind of universe. The movie has very strong dialogues and an amazing storyline. This story has given the audience the opportunity to learn a lot about this society - where people live - how they live - what do they believe in - who are their heroes - what is their belief system - do they think equality of people is a reality or a dream. This movie can change your perspective on life and make you see things from a different angle. It can give you a new outlook on life and it will make you feel pride for being from India. This film offers us insights into our Indian society, of which majority many of us are not aware of. The brave portrayal of women of Wasseypur was seen as hypocritical but according to me it was simply realistic.
